RE: RA 17 Stockpiles 1,2,
and 4 WAC Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Waste Acceptance Criteria (WAC) report for the Removal Action (RA) 17 stockpiles 1, 2, and 4.

The report summarizes the results of real-time scanning and soil sample analysis conducted at the RA 17 soil stockpiles 1, 2, and 4 to evaluate whether the soil in the stockpiles meets the WAC for the On-Site Disposal Facility (OSDF). The report indicates that the material meets the WAC and is adequate to dispose in the OSDF.

U.S. EPA concurs with the report. Therefore, the material can be placed in the OSDF. Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
